Healthy babies don't cry and the well-nourished baby that is fed on firape-Nuts is never a crying baby. Many babies who canot take any other food relish the perfect food, Grape-Nuts, and get well.

"My little baby was given up by three doctors who said that the conformed milk on which I had fed her had ruined the child's stomach. One of the doctors told me that the only thing to do would be to try Grape-Nuts, so I got nome and prepared it as follows: I soaked 1½ tablespoonfuls in one pint of cold water for half an hour, then I strained off the liquid and mixed 12 teaspoonfuls of this strained Grape-Nuts luice with six teaspoonfuls of rich milk, put in a pinch of sait and a little sugar, warmed it and gave it to baby every two hours. "In this simple, easy way I saved haby's life and have built her up to a strong, healthy child, rosy and laughing. The food must certainly be perfect to have such a wonderful effect as this. I can truthfully say I think it is the best food in the world to raise delicate babies on, and is also a delicate, healthy inform of ramily." Grape-Nuts is equally wathable to the strong, healthy man or woman. It atands for the true theory of health. "There's a Reason." Read "The Road to Wellyllle," in plags.
